## Guide to symbols

$\mathbf{V}$ a black tick indicates that the allergen is present in the dish. The allergen may appear in more than one ingredient and it may not be immediately obvious, for example; the allergen could be hidden in a sauce.

IMPORTANT NOTE: Please be aware that although some allergens may not be contained in the ingredients of your dish, they may still be present and cannot be removed entirely. This is due to the nature of our preparation and storage processes in our sites and at our suppliers where we are unable to completely exclude allergens from the environment. Please ensure your server is aware of your allergy or intolerance.
